

RM of Craik No. 222 – Rural Garbage Collection Program

The RM of Craik No. 222 has entered into an agreement with Loraas Disposal South for an optional rural waste collection program. By doing so we have been able to secure the lowest rate possible to provide our ratepayers with cost effective options for personalized garbage disposal service. This program will allow the ratepayers to select the bin of their choice that will best fit their needs and their budget.

In these programs, containers would be delivered to the ratepayer's location and serviced on site to the selected service level. Enclosed containers in conjunction with proper service schedule ensure that waste does not smell for extended periods of time, which helps reduce unwanted pests & wildlife, litter and the need for burning.

If a ratepayer does not generate enough waste to utilize a bin on their own, they may share the service with another person thus reducing the overall cost. *Please note that only one person will be required to sign up and will be invoiced by the RM. Any split costs are to be handled at the individual's discretion.*

As this is an optional program, ratepayers that wish to participate will be required to sign up directly with the RM of Craik No. 222. To sign up for the garbage service, simply fill out the registration form and return it to the RM office. If you already have an existing Loraas account and bin on your site please continue to register with the RM and the account will be switched over for you. Loraas will invoice the RM of Craik No. 222 and they in turn invoice the ratepayer.
